A headlamp is a lamp attached to the front of a vehicle to illuminate the road ahead. Headlamps are also often called headlights, but in the most precise usage, headlamp is the term for the device itself and headlight is the term for the beam of light produced and distributed by the device... Headlamp performance has steadily improved throughout the automobile age, spurred by the great ...

What are brake rotors and where are they located? Brake rotors, referred to as brake discs, are components in a disc brake system.A disc brake system consists of brake calipers, pads, and rotors.The rotors bolt onto the wheel hubs or axles, and spin at the same rate as the wheels.When you press the brake pedal, hydraulic pressure is transmitted to the caliper, which acts as a clamping device ...
