Welcome to PLC Connect PLC Connect is

Acces PDF Abb Plc Manual Wordpress

a connectivity option to Industrial IT 800xA that makes it possible to connect and integrate any type of remote or local installed PLC, RTU or other type of device. The information from the connected unit can be treated in the same way as information from other 800xA System connectivities.

System 800xA, PLC Connect, Configuration - library.e.abb.com

This application note describes how to connect ABB DX581-S safety I/O module to the ABB BSR23 safety relay for potential-free switching of 6 A/5 A (+24 V DC / 250 V AC) electrical loads, such as safety solenoid valves. This extends existing AC500-S safety PLC system with the safety relay functionality for up to PL e and SIL 3 safety functions.
