An iMovie library holds all the media and data used to make movies in iMovie. If your iMovie library is large and you want to free up storage space on your Mac, you can move your iMovie library to an external drive. Before you move an iMovie library, it's a good idea to back up your Mac.

Move your iMovie for Mac library - Apple Support

Apple says iMovie requires a Mac running OS X Mavericks (version 10.9) or later. Apple also recommends at least 4 GB of memory. It goes without saying, of course, that the more memory you have (and the bigger your screen and the faster your processor), the happier you and iMovie will be. This program is seriously hungry for horsepower.
