I have felt sympathy for objects since I was a very young child.. This has caused me a huge amount of sadness and anxiety over the years. I feel sad for the photograph that gets pushed to the back of the display cabinet, the guitar that doesn't get played anymore, and the once loved camera that has now been displaced by a newer one.

### **Autism: Feeling sympathy for inanimate objects**

In fact, because they are often disruptive and noticeable to others around them, externalizing symptoms in children have historically received quite a bit more attention and research than those of internalizing symptoms, but that is starting to change. In general, girls display more internalizing symptoms than boys do.

Feeling "addicted." Cutting can be habit forming. Though it only provides temporary relief from emotional distress, the more a person cuts, the more he or she feels the need to do it. As with other compulsive behaviors, the brain starts to connect a momentary sense of relief from bad feelings with the act of cutting.

### **Cutting (for Parents) - Nemours KidsHealth**

I totally agree with this article and at 46 i now understand a lot more about why i behave the way i have and also why i've made the choices i have. It all starts with awareness of ones behavior to start positive changes. I grew up feeling unloved by both my parents. One parent emotionally

abusive and and one physically abusive.

### **Abusive Relationships Impact Children**

There are so many young girls who just want NSA sex. We love it. BUT: We can't help but notice the millions of women in their 30s-50s saying: "Where are all the good men at?!" They are gone. They're having too much fun. They are at the bar chasing young girls exploring their sexual freedom. And they can keep it up until they turn 50.
