Satellite phones are usually issued with numbers in a special country calling code.. Inmarsat satellite phones are issued with codes +870. In the past, additional country codes were allocated to different satellites, but the codes +871 to +874 were phased out at the end of 2008 leaving Inmarsat users with the same country code, regardless of which satellite their terminal is registered with.

3) Electronic Manual System. The FAA's standards for electronic manuals and electronic manual systems are located in Volume 3, Chapter 31, Section 2 and AC 120-78. In accordance with these standards, a certificate holder/program manager will be required to submit an application for acceptance of the electronic manual system to the CHDO.

#### VOLUME 3 GENERAL TECHNICAL ADMINISTRATION

The majority of the above definition makes it clear that the intent of JPRA is to teach POW survival skills, at least until they use the word "detainee". Please allow me to call your attention to the term "detainee". In layman's language, the term "detainee" simply means someone who is a prisoner of the military occupation force (U.S. government).
