Nikon D5500 Experience

The Nikon D5000 series has long been a good choice for photographers who wanted a very capable compact DSLR that offer a higher level of enthusiast features than the D3000 series that sits below it. Nikon's latest model - the D5500 - continues that trend, though the differences between it and the D5300 that came before it aren't enormous. The D5300, introduced in the fall of 2013, impressed us ...
