The Prescriber's Digital Reference (PDR) is a compilation of manufacturers' prescribing information (package insert) on prescription drugs, updated regularly and published by ConnectiveRx. The original PDR was titled "Physician's Desk Reference" but was renamed because not all prescribers are physicians and the reference is no longer a hardback book stored on a desk.

Some fruit juices and fruits can interact with numerous drugs, in many cases causing adverse effects. The effect was first discovered accidentally, when a test of drug interactions with alcohol used grapefruit juice to hide the taste of the ethanol.. The effect is most studied with grapefruit and grapefruit juice, but similar effects have been observed with certain other citrus fruits.
