The PDSA framework covers four phases. It allows organizations to plan to test a change in a process (plan), to carry out that test by making changes in that process (do), to observe and analyze, through measurements, the effects of that change (study), and then to decide how to react to that first test (act).

Managing projects
involves overseeing
several vital
organizational
components: budgets,

Where To Download Staffing Organizations

schedules, materials acquisition, and human resources. To manage these components successfully, researchers and practitioners have developed numerous types of methods. But most methods were usually mechanistic and based on the assumption that if budgets and schedules were met, then project success was imminent.
