The Rise Of The Humans

The Rise of the Humans starts NOW! Hi, my name is Dave Coplin and I love technology. When I say I love technology I don't mean that I lust after the latest gadgets (although I do enjoy using them) no, what I love is the amazing potential that technology offers to make all aspects of our lives and our society better.

The Rise of the Humans - Home

Get ready for the rise of the humans Hardly a day goes by, it seems, without apocalyptic warnings that robots in the workplace will create a dystopian destiny. The convergence of artificial intelligence, robotic process automation (RPA), machine learning, and cognitive platforms are at the forefront of the Fourth Industrial revolution.

Rise of the Humans series - KPMG Global

› Rise of the humans 3 Extraordinary advances in technology are poised to dramatically transform the “traditional workforce.” As the pace and scope of change escalate, today’s forward-looking business leaders must address critical question: What will my workforce – and business – look like as skilled employees and smart machines begin working together?

Rise of the Humans - KPMG Global

What makes The Rise of Humans so unique is the approach Professor Hawks brings toward explaining the field's hottest debates. One of the first paleoanthropologists to study fossil evidence and genetic information together in order to test hypotheses about human prehistory, Professor Hawks is adept at looking at human origins not just with one lens, but with two.

Rise of the Humans 2 observed that AI will initially reshape jobs by automating, reorganizing and dramatically redefining work at the task level rather than automating entire jobs. Indeed, it's already happening. According to one senior HR leader at a large global bank: "The HR function is moving from a world where it used to match

Seventy thousand years ago, our human ancestors were insignificant animals, just minding their own business in a corner of Africa with all the other animals. But now, few would disagree that humans dominate planet Earth; we've spread to every continent, and our actions determine the fate of other animals (and possibly Earth itself).
