Swift is a general-purpose, multi-paradigm, compiled programming language developed by Apple Inc. and the open-source community. First released in 2014, Swift was developed as a replacement for Apple's earlier programming language Objective-C, as Objective-C had been largely unchanged since the early 1980s and lacked modern language features. Swift works with Apple's Cocoa and Cocoa Touch ...

Battalion recaptures the core of classic competitive shooters & refines the 'classic' FPS feel for the next generation. Focusing on 5v5 infantry combat, where precise flick shots with your Kar98, covering fire with your Thompson and fluid movement are key to clutching every round for your team.

BATTALION 1944 on Steam

Warning: making a fury furious may cause certain side effects, including attracting a pure Fury. To make a fury furious (and greatly increase its output damage), ride one during its strong time and have an opposing type fury nearby. For example: during the daylight, ride a dawn fury next to a dusk fury. The light beam and sparks means its working.
