Why should I use manual lenses? They can be very cheap, you can get a great 1.4/50 lens for \$50.For most applications such a lens will give you 90% of the performance of a \$1000 Zeiss 1.8/55 FE.For the \$1000 you would have to pay for that Zeiss you can buy an excellent set of five lenses from 20 to 300mm.

Beginners Guide to using Manual Lenses on the Sony a7 ...

For faster-paced shoots, I use autofocus lenses. I know that some people are really good (and fast) with manual focus lenses, particularly for street shooting using the zone focus method. Personally, I use the manual focus lenses when I can take it slow. Another thing that should be mentioned is that the adapters do make the lens a bit bigger.

Using Manual Lenses With the Fuji X System - Roy Cruz Photo

Then used Contax cameras with Zeiss designed (japanese manufactured) lenses. I find Zeiss lenses well designed optically and mechanically. This lens is no exception. The aperture has many leaves - it is near circular when closed. Rotating the focus ring will shift focus depth to a different point. The lens must be energized (i.e. shutter ...

The Contaflex series is a family of 35mm leaf-shuttered SLR cameras, produced by Zeiss Ikon in the 1950s and 1960s. The name was first used in 1935 on a 35mm Twin-lens reflex camera, the Contaflex TLR also by Zeiss Ikon, the -flex part in the name referring to integral mirror for the viewfinder. The first models, the Contaflex I and II have fixed lenses, while the later models have ...

Contaflex SLR - Wikipedia

Macro lenses are meant for capturing close-up images and video of small objects such as insects or flowers at a short range, while retaining sharp focus. With focal lengths of 15mm or less, and a 180-degree field of vision, they make the objects look larger while distorting the surroundings.
